Interpolation: Second Edition (Dover Books on Mathematics)

J. F Steffensen

Interpolation: Second Edition (Dover Books on Mathematics) J. F Steffensen
In the mathematical subfield of numerical analysis, interpolation is a procedure that assists in "reading between the lines" in a set of tables by constructing new data points from existing points. This rigorous presentation includes such topics as displacement symbols and differences, divided differences, formulas of interpolation, much more. 1950 edition.
