Parenting Without God: How to Raise Moral, Ethical and Intelligent Children, Free from Religious Dogma Dan Arel

One of the very few parenting books written specifically for the 1 in 5 Americans who lack a belief in God

Parenting Without God is for parents who lack belief in a god and who are seeking guidance on raising freethinkers in a Christian-dominated nation. It will help parents give their children the tools to stand up to attempts at religious proselytization, whether by teachers, coaches, friends, or even other family members. It also offers advice on teaching children to question what others tell them and to reach their own conclusions based on evidence and reason. Above all, the book argues that parents should lead by example—both by speaking candidly about the importance of secularism and by living an openly secular life.
