Arduino Music and Audio Projects Mike Cook

This book is for musical makers and artists who want to gain knowledge and inspiration for your own amazing creations. **"Grumpy Mike" Cook**, co-author of several books on the Raspberry Pi and frequent answerer of questions of the Arduino forums, brings you a fun and instructive mix and simple and complex projects to help you understand how the Arduino can work with the MIDI system to create musical instruments and manipulate sound.

In Part I you'll find a set of projects to show you the possibilities of MIDI plus Arduino, covering both the hardware and software aspects of creating musical instruments. In Part II, you learn how to directly synthesize a wave form to create your own sounds with Arduino and concludes with another instrument project: the SpoonDuino. Finally, in Part III, you'll learn about signal processing with the Arduino Uno and the Due — how to create effects like delay, echo, pitch changes, and realtime backwards audio output.

If you want to learn more about how to create music, instruments, and sound effects with Arduino, then get on board for Grumpy Mike's grand tour with Arduino Music and Sound Projects.

What you'll learn

- Hands-on musical instrument projects using Arduino
- Both the hardware and software aspects of creating musical instruments
- Signal processing and sound effects projects
- Explanations and inspiration from Arduino expert "Grumpy Mike" Cook

Who this book is for

Arduino and electronics enthusiasts who want to create music and sound projects, and musicians who want to tinker to create innovative instruments and sounds.

From reader reviews:

Nancy Martindale:

Do you among people who can't read enjoyable if the sentence chained in the straightway, hold on guys this aren't like that. This Arduino Music and Audio Projects book is readable by means of you who hate the straight word style. You will find the data here are arrange for enjoyable examining experience without leaving actually decrease the knowledge that want to give to you. The writer regarding Arduino Music and Audio Projects content conveys objective easily to understand by lots of people. The printed and e-book are not different in the content material but it just different as it. So , do you continue to thinking Arduino Music and Audio Projects is not loveable to be your top record reading book?

Daryl Thurmond:

This book untitled Arduino Music and Audio Projects to be one of several books that best seller in this year, here is because when you read this reserve you can get a lot of benefit in it. You will easily to buy this particular book in the book retail store or you can order it by way of online. The publisher with this book sells the e-book too. It makes you easier to read this book, since you can read this book in your Touch screen phone. So there is no reason for your requirements to past this reserve from your list.

Linda Guyette:

Do you have something that you prefer such as book? The guide lovers usually prefer to select book like comic, small story and the biggest some may be novel. Now, why not trying Arduino Music and Audio Projects that give your enjoyment preference will be satisfied by means of reading this book. Reading routine all over the world can be said as the way for people to know world much better then how they react towards the world. It can't be said constantly that reading habit only for the geeky individual but for all of you who wants to always be success person. So , for every you who want to start reading as your good habit, you may pick Arduino Music and Audio Projects become your current starter.

Craig Rushing:

E-book is one of source of understanding. We can add our knowledge from it. Not only for students and also native or citizen have to have book to know the upgrade information of year to be able to year. As we know those textbooks have many advantages. Beside all of us add our knowledge, can also bring us to around the world. Through the book Arduino Music and Audio Projects we can have more advantage. Don't someone to be creative people? Being creative person must love to read a book. Simply choose the best book that appropriate with your aim. Don't become doubt to change your life at this time book Arduino Music and Audio Projects. You can more attractive than now.
