Geology of Gas and Oil under the Netherlands: Selection of papers presented at the 1993 International Conference of the American Association of Petroleum Geologists, held in The Hague

Geology of Gas and Oil under the Netherlands: Selection of papers presented at the 1993 International Conference of the American Association of Petroleum Geologists, held in The Hague

Contains 21 papers on the petroleum geology of the Netherlands, combining work by the industry, the Geological Survey and universities. The wide range of topics presented includes reservoir characterization through 3D seismic and borehole log evaluation of single oil and gas fields, as well as reviews of the hydrocarbon habitat in the West Netherlands Basin and of the regional Rotliegend facies distribution. Published in association with the Royal Geological and Mining Society of the Netherlands (KNGMG), which hosted the 1993 International Conference in the Hague of the American Association of Petroleum Geologists. The papers were prepared for this conference.

Audience: Staff engaged in hydrocarbon exploration and production in the North Sea area. Others who need to know about the results of this exploration and production in the Netherlands.
