Karma - The Mechanism Create Your Own Fate Hermann Kuhn

The first book that tells - what karma really is, - how it works, - what causes karma and - how to use it successfully in our daily life. Karma - the Mechanism is part of an authentic, ancient Indian manuscript. Though it originated millennia ago, its information proves extremely relevant to our present times. The current search for purpose beyond material saturation will in it find the keys to an expansion of human experience entirely unknown to the West. This key is not shrouded in obscure language nor demands the application of mystic techniques, it simply interprets life from a new angle. This new angle enables us to arrange the components of our daily life in a way that will automatically produce effective action and dynamically expanding cognition. For the first time Karma - the Mechanism presents this ancient knowledge and its practical application in modern English and makes it accessible to everyone in the West.
