Tonal Harmony, With an Introduction to Twentieth-Century Music Stefan Kostka

Designed to meet the needs of the two-semester theory curriculum for music majors, Tonal Harmony is a straightforward book that emphasizes practicality and ease-of-use for both the student and the professor.

By focusing on the core elements of the theory curriculum in a single-volume format, the text is both a complete coursebook and a handy and cost-saving manual for students. On the professors side, the supplements package (with a collection of CD audio examples and an extensive Instructors Manual) makes the book easy to use and to teach.
