Born to freedom. Molded into submission. Pleasure is her only weapon.

No matter what the law decrees, Entreis is no one's chattel. And he's determined that no other humanotic—part human, part robot—spends one more second under the stranglehold of the power-mad government machine. That means doing *whatever* it takes to advance the cause for freedom. Even seduce a government minister's favorite toy, a newly minted trinex named Silver.

Silver was a free woman until she committed the ultimate sin—pretending to be male to gain entrance to an exclusive science academy. Her punishment: modification. Now she is equal parts female, male and machine. The property of the secretive, charismatic Lel Kesselbaum, whose appetites push her new sexual abilities to heights of pleasure that make her wonder who is master, who is slave.

Until Entreis bargains his body in exchange for a secret meeting that rekindles her longing for freedom. Yet helping the fiery revolutionary execute his plan isn't so simple, especially when she discovers her master's secret—a secret that leaves her heart torn between two men. And one step in the wrong direction could mean death for them all.

Warning: Contains wickedly inventive sexual situations and language, including not-so-ordinary body modification and same-sex scenes with BDSM elements. And a most unusual application of decorative silver. Please step away if your taste doesn't run toward the exotic.
