Strengthening Inclusive Education (Focus on Education)

Strengthening Inclusive Education (Focus on Education)

Inclusive education addresses the diverse learning needs of all kinds of learners. It reaches out to excluded groups and goes beyond providing physical access to learning institutions to encompass academic and instructional access to learning concepts. This report clearly presents the development of inclusive education and provides a rationale for strengthening it. The report identifies the various forms of exclusion from education and stresses the patterns of exclusion by subsector and by subregion in Asia and the Pacific. It serves two main purposes: as a strategic and operational guide for the Asian Development Bank and its education sector staff in strengthening inclusive education projects in developing member countries; and as an informative resource for education ministries, institutions, and other stakeholders of education in the region.
