A década de 1950 no Brasil representou um momento de grande importância na história nacional. Além da consolidação da democracia que permitiu a ampliação do jogo partidário e da participação popular, após anos da "ditadura estadonovista", o período se destacou por um desenvolvimento industrial significativo oriundo de uma política nacional desenvolvimentista responsável pela criação da Petrobras e outras indústrias de peso. No entanto, o que ficou na lembrança dos brasileiros foi o episódio traumático do suicídio de Getúlio Vargas, um dos temas centrais abordados nesta coletânea de artigos. O livro veio a público pela primeira vez em 1994 e está sendo relançado para grande satisfação dos estudiosos e interessados por esta história contada por especialistas de diferentes áreas que tiveram o cuidado de torná-la acessível a um público amplo.
