The Songs of Angels: A Novella Fredrick Zydek

Not your Sunday school teacher's rendition of Genesis, *The Songs of Angels* is a journey into the primordial beginnings of the universe and retells the origins of the greatest vendetta story of all time: Lucifer's. Zydek's prose puts flesh on the bones of the biblical account of creation and explores the dynamics between free will and rebellion, love and obedience, creativity and freedom. Here, at the boundary where spirit meets matter, we glimpse the original wonder of what it means to be created human. A fascinating, delirious, thought-provoking read. ~ Jason Ranek, author of *The Crossing* Imagine that you are an archangel when suddenly God tells you He is going to create a universe composed of matter - something you have never experienced. And imagine that you have been commissioned to be present to the creation of each thing and to write music that will welcome it into existence. Now imagine that all the archangels are excited and happy with their commission except one. In this spiritual fantasy you are present to creation and to the fall of one of heaven's most beautiful archangels. This is a story that will make you laugh, wonder, and sometimes cry.
