The persecution of lesbians and gay men by the Nazis is a subject that has been constantly debated during the last decade, providing a theme for books, articles, and plays. Until recently the discussion has remained speculative: most of the relevant documents were stored in closed East German archives, and access was denied to scholars and researchers.

As a result of the unification of East and West Germany, these archives are now open. *Hidden Holocaust*, by the German scholars Gunter Grau and Claudia Shoppmann of Humboldt University, Berlin, demonstrates that the eradication of homosexuals was a declared goal of the Nazis even before they took power in 1933, and provide proof of the systematic anti-gay campaigns, the methods used to justify discrimination, and the incarceration, mutilation and murder of gay men and women in Nazi concentration camps.

A chilling but groundbreaking work in gay and lesbian studies.
