THE OBSERVATION. The name Palestine occurs for the first time in Herodotus. In its Hebrew equivalent Felestheth, or land of wanderers it meant only Philistia. In the later Greek and Roman period it was applied, as we apply it, to the whole country occupied by the Israelites on both sides of the Jordan, but as Canaan, the oldest of all the names, meant only the lowland, or country west of the Jordan, so now most people, when they think of Palestine, give it the same narrow boundaries. Eastern Palestine hardly comes into the account. And yet the historic associations belonging to the country east of the Jordan are rich and various. Two and a half of the twelve tribes that came out of Egypt under Moses chose that side of the river for their home. Syrian, Assyrian, and Chaldean armies marched in and out there. Some of the disbanded veterans of Alexander settled there. It was beyond the Jordan that John the Baptist began and ended his official career. Nearly six months of our Lord's brief ministry were spent on the same side of the river. (Typographical errors above are due to OCR software and don't occur in the book.)
