The Spectrum of Mineral and Bone Disorder in Chronic Kidney Disease (Oxford Clinical Nephrology Series) Klaus Olgaard, Justin Silver, Isidro B. Salusky

Despite significant improvement in the management of patients with chronic kidney disease, the morbidity and mortality remain high. However more is now understood about the hormonal influence on bone and vascular structures, and there have been major advances in the field of bone and mineral metabolism. This has led to the development of new treatment strategies and agents.

This new second edition reflects the most current thinking and understanding in this fascinating field, as presented by world basic and clinical experts.
